Pacific Coast Archaeological Society Quarterly

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group formed to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas.

The Publications Committee invites the submittal of original contributions dealing with the history and prehistory of the area. Although PCAS is especially interested in reports which shed further light on the early inhabitants of Orange County, it is always interested in reports on the wider Pacific Coast region.

Subscription to the *Pacific Coast Archaeological Society Quarterly* costs \$35 per calendar year. The PCAS also publishes a monthly newsletter, which costs \$10 per calendar year. There is an additional postage charge for foreign subscriptions: \$9 for the *Pacific Coast Archaeological Society Quarterly* and \$4 for the *PCAS Newsletter*. Back issues of the *Pacific Coast Archaeological Society Quarterly* are available for \$12 per single issue. A complete list of the articles in previous issues is included in the 25-year index published as Volume 25, Number 4, (1989) and the 5-year supplement published as Volume 32 Supplement (1996). Two *Occasional Papers*, on Catalina Island and on Mexican Majolica, also have been published by PCAS. To place an order, or to receive information about the Pacific Coast Archaeological Society, or to submit an article for publication, write to: Pacific Coast Archaeological Society, P.O. Box 10926, Costa Mesa, California, 92627. PCAS is not responsible for delivery of publications to subscribers who have not furnished a timely change of address. Articles appearing in the *Pacific Coast Archaeological Society Quarterly* are abstracted in *Historical Abstracts* and *America: History and Life*.

Recent issues of the *Pacific Coast Archaeological Society Quarterly* appear on the Internet at www.pcas.org where they can be downloaded and viewed, but not printed. This issue of the *Pacific Coast Archaeological Society Quarterly* is copyrighted © 1998 by the Pacific Coast Archaeological Society.

Anna C. Noah	
Of the Old Summer Fishing Camp: The Archaeological Heritage of ORA-1429, Los Trancos Canyon, Crystal Cove State Park	32
Paul G. Chace	
Oxygen Isometry Yields Seasonality Estimates for a Shellfish Sample from CA-ORA-855	74
Henry C. Koerper and John S. Killingley	

About the Authors

Paul G. Chace has been with The Keith Companies in Orange County since 1993. He is a professional archaeologist and social anthropologist specializing in cultural resources management, preservation law, and ethnic relations theory. Elected a Fellow of the American Anthropological Association in 1976, and certified by the Society of Professional Archaeologists since 1977, his career spans over 25 years with extensive practice as an archaeologist, museum curator, historian, ethnologist, and private consultant. He has lectured and published widely on Western prehistory and Chinese American culture.

John S. Killingley received his Ph.D. in Chemistry from the University of Hawaii. He has conducted research pertaining to stable isotopes in the marine environment, including deep sea cores and fish otoliths; migration of whales using water temperature data from their barnacles; and sea clams from deep-sea hydrothermal vents. Dr. Killingley is also interested in paleo-oceanic reconstructions and micropaleontology.

Henry C. Koerper holds a B.A. in History and an M.A. in Anthropology from the University of California, Davis. He earned his Ph.D. in Anthropology at the University of California, Riverside. Dr. Koerper teaches anthropology at Cypress Community College in Orange County. His interests beyond Orange County archaeology include the study of early 20th century Native American sports figures, the aerodynamics of nonreturn boomerangs, and plants in the ancient Mediterranean pharmacy and medicine. He has been a regular contributor to the *Pacific Coast Archaeological Society Quarterly* and to the *Journal of California and Great Basin Anthropology*.

Anna C. Noah received her B.A. and M.A. in Anthropology from San Diego State University. She was employed as an archaeologist for the County of San Diego for over twenty years and has performed archaeological research throughout San Diego County, on San Clemente Island, and in Peru, specializing in vertebrate faunal analysis. She has recently begun Ph.D. studies at the University of California, Los Angeles.
