and Kathleen Shada

## *Pacific Coast Archaeological Society Quarterly*

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group originally founded to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas. The Publications Committee invites the submittal of original contributions dealing with regional history and prehistory. Although PCAS is especially interested in reports which shed further light on the early inhabitants of coastal southern California, it is always interested in reports on the wider Pacific Coast region.

Information about subscriptions to the *Pacific Coast Archaeological Society Quarterly* and the *PCAS Newsletter* is available online at [www.pcas.org](http://www.pcas.org). Back issues of the *Pacific Coast Archaeological Society Quarterly* are available. An index to Volumes 1 through 40 is available as Volume 40, Numbers 3 & 4. This searchable index is online at [www.pcas.org](http://www.pcas.org). Three *Occasional Papers*, on Catalina Island, Mexican Majolica, and the Peralta Adobe, have also been published by PCAS. To place an order, receive information about the Pacific Coast Archaeological Society, or submit an article for publication, email [publications@pcas.org](mailto:publications@pcas.org) or write: Pacific Coast Archaeological Society, P.O. Box 10926, Costa Mesa, California, 92627. Additional information is available at [www.pcas.org](http://www.pcas.org). PCAS is not responsible for delivery of publications to subscribers who have not furnished a timely change of address.

Recent issues of the *Pacific Coast Archaeological Society Quarterly* are available at [www.pcas.org](http://www.pcas.org) and can be downloaded and viewed, but not printed. Articles appearing in the *Pacific Coast Archaeological Society Quarterly* are abstracted in *Historical Abstracts* and *America: History and Life*. This issue of the *Pacific Coast Archaeological Society Quarterly* is copyrighted © 2011 by the Pacific Coast Archaeological Society. ISSN 0552-7252.

### PCAS Officers 2009

President	Sherrí Gust
Vice President	Ivan Strudwick
Secretary	Rene Brace
Treasurer	Tony Sawyer

Please note that this issue was published in August 2011. In the PCAS Quarterly publication sequence, this issue is Volume 45, Numbers 1 and 2 (subscription year 2009).

## *Contents*

Violence in Eden: Indigenous Warfare in Peninsular Baja California ..... 1  
W. Michael Mathes

Continuities in a Time of Change: Lithic Technology  
at Mission Santa Catalina, Baja California ..... 13  
Lee M. Panich

Marine Resource Consumption in Ancient California ..... 31  
Theresa M. Schober and J. Eldon Molto

Continuity in Stone Tool Use during the Historic Period  
in San Diego County, California ..... 49  
Michael P. Sampson

Ecological Considerations of Archaeological Shell Materials  
from CA-LAN-2630 ..... 79  
Alan C. Miller and Matthew A. Boxt

Two Sea Otter Effigies and Three Pinniped Effigies:  
Illustrations, Descriptions, and Discussions ..... 101  
Henry C. Koerper

Cover: Sea otter hind foot (flipper) effigy and earless seal hind flippers effigy.  
Drawings by Joe Cramer.

The PCAS Quarterly editors thank Dr. Matthew A. Boxt for compiling four of the papers that  
appear in this issue.

## *About the Authors*

**Matthew A. Buxt**, Ph.D., received a BA (1976) from UC Berkeley and was awarded MA (1979) and Ph.D. (1993) degrees from UCLA. His research interests include Mesoamerica, southern California, and the archaeology of Baja California Sur. Dr. Buxt has conducted fieldwork in Belize, Guatemala, Mexico, and southern California. He is currently a Lecturer in the CSU Northridge Department of Anthropology.

**Henry Koerper**, Ph.D., received a BA (1965) and an MA (1968) from UC Davis, and he earned a Ph.D. in anthropology at UC Riverside in 1981. His varied employments have included: CDF firefighter; USFS fire suppression field and laboratory researcher; California Army National Guard explosives technician; archaeological field excavator (e.g., Old Sacramento Project, Prescott College Black Mesa Project); Peace Corps teacher and athletic coach (Voi Harambee High School, Kenya); college anthropology professor (Chapman College [5 years] and Cypress Community College [30 years]); and archaeological consultant to several southern California CRM firms. Semi-retirement allows Dr. Koerper time to help produce the PCAS Quarterly.

**W. Michael Mathes**, Ph.D., spent much of his childhood in Baja California. He received his BS at Loyola University, Los Angeles, MA at the University of Southern California, and Ph.D. at the University of New Mexico. He has received research grants from the Fullbright Commission, Del Amo Foundation, and John Carter Brown Library. From 1966 to 1992, he was professor of Ibero-American History at the University of San Francisco, where he is Professor Emeritus. From 1974 to the present, he has been a researcher at the Instituto de Investigaciones Históricas, UABC. From 1979 to the present, he has been Curator of Mexicana at Sutro Library, San Francisco; and he has been director of the Biblioteca Mathes, El Colegio de Jalisco, since 1995. Dr. Mathes is a member of the Academia Mexicana de la Historia, Sociedad Mexicana de Geografía y Estadística, and American Academy of Franciscan History. He holds the Orden Mexicana del Aguila Azteca and Encomienda de la Orden de Isabel la Católica (Spain). He is also Doctor Honoris Causa in the Universidad Autónoma de Baja California. Dr. Mathes has published over 20 books and 100 articles on the history and ethnography of Baja California.

**Alan C. Miller**, Ph.D., received a BA in biology from Stanford University and an MA and Ph.D. in biology from the University of Oregon. He taught at CSULB from 1974 to 2005 in the areas of ecology, marine biology, and statistics and is currently Professor Emeritus. In addition to work with Dr. Matthew Buxt at CSULB, he has been making informal observations on migration routes, encampments, and piñon nut harvest sites of the Panamint Shoshone and the Kawaiisu during his hikes over the past 60 years in the Panamint, Argus, and Slate Range mountains.

**J. Eldon Molto**, Ph.D., is a professor of bioarchaeological science at the University of Western Ontario, London, Ontario, Canada. His research focuses on paleogenetics (morphology and aDNA) and paleoepidemiology of “ancient” desert populations. Currently he is the director of the bioarchaeology program of the internationally known Dakhleh Oasis Project in Egypt. In the mid 1990s he directed a major bioarchaeology project in Baja California Sur that focused on reconstructing the Las Palmas population. Since 1995, he developed two molecular laboratories in Thunder Bay, Ontario, Canada—the Paleo-DNA lab at Lakehead University, which focuses on ancient DNA, and Molecular World Inc., which focuses on forensic DNA analysis.

**Lee M. Panich**, Ph.D., teaches anthropology at Santa Clara University. He received his BA from Brown University and his MA and Ph.D. from the University of California, Berkeley. His research focuses on the interactions between the indigenous peoples of Alta and Baja California and Euro-American colonists. In addition to his ongoing research at the site of Mission Santa Catalina in Baja California, he has worked on academic and cultural resource management projects throughout central California

**Michael Sampson**, MA, is an archaeologist with California State Parks in San Diego, and he has been involved with California archaeology for nearly 40 years. He has a BA degree in anthropology from California State University, Northridge, and an MA degree in anthropology from Washington State University. His research interests include California prehistory, stone tool technology and tool function analysis, the archaeology of the California deserts, the contact period in California, mining in the western U.S., California red wines, and other subjects. He is a past president of the Society for California Archaeology.

**Theresa Schober**, MA, received her BS degree in archaeology from the University of Calgary and her MA degree in anthropology from the University of Illinois at Urbana Champaign. While completing a Ph.D. in anthropology at the University of Florida, she works for the Town of Fort Myers Beach, Florida, as Director of Cultural Resources, developing an archaeological site known locally as Mound House into a public museum. Her research interests include human adaptations to coastal environments and changing patterns of diet and health through culture contact.
