Jack Lissack, Laura Mitchell, Beth Padon, Chris Padon, W. L. Tadlock

Production Editors        Beth Padon, Chris Padon

Editor Emeritus            Lavinia Knight

## ***Pacific Coast Archaeological Society Quarterly***

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group formed to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas.

The Publications Committee invites the submittal of original contributions dealing with the history and prehistory of the area. Although PCAS is especially interested in reports which shed further light on the early inhabitants of Orange County, it is always interested in reports on the wider Pacific Coast region.

Subscription to the *Pacific Coast Archaeological Society Quarterly* costs \$35 for calendar year 2005. The PCAS also publishes a monthly newsletter, which costs \$15 for calendar year 2005. There is an additional postage charge for foreign subscriptions: \$9 for the *Pacific Coast Archaeological Society Quarterly* and \$4 for the *PCAS Newsletter*. Back issues of the *Pacific Coast Archaeological Society Quarterly* are available for \$12 per single issue (including postage and handling for domestic address). A complete list of the articles in previous issues is included in the 25-year index published as Volume 25, Number 4, (1989) and the 5-year supplement published as Volume 32 Supplement (1996). Three *Occasional Papers*, on Catalina Island, Mexican Majolica, and the Peralta Adobe, also have been published by PCAS. To place an order, or to receive information about the Pacific Coast Archaeological Society, or to submit an article for publication, write to: Pacific Coast Archaeological Society, P.O. Box 10926, Costa Mesa, California, 92627, email: [info@pcas.org](mailto:info@pcas.org). PCAS is not responsible for delivery of publications to subscribers who have not furnished a timely change of address. Articles appearing in the *Pacific Coast Archaeological Society Quarterly* are abstracted in *Historical Abstracts* and *America: History and Life*.

Recent issues of the *Pacific Coast Archaeological Society Quarterly* appear on the Internet at [www.pcas.org](http://www.pcas.org) where they can be downloaded and viewed, but not printed. This issue of the *Pacific Coast Archaeological Society Quarterly* is copyrighted © 2005 by the Pacific Coast Archaeological Society. ISSN 0552-7252.

### PCAS Officers 2002

President	Ves Snelson
Vice President	Joe Hodulik
Secretary	Sandy Schneeberger
Treasurer	Rene Brace

Please note that the date on the cover of this issue (Fall 2002) identifies the chronological series. However, this issue was printed and distributed in February 2006.

## ***Contents***

Native Employment of Mineral Pigments with Special Reference to a Galena Manuport from an Orange County Rock Art Site.....	1
Henry C. Koerper and Ivan H. Strudwick	
New Dates and Data from Archaic Malibu with Some Regional Considerations .....	21
Judith F. Porcasi and Paul Porcasi	
Early and Middle Holocene Hearth Features Along the Garlock Fault, Western Fremont Valley, California.....	45
Jill K. Gardner, Sally F. McGill, and Mark Q. Sutton	
Quartz Crystals and Other Sparkling Minerals from the Bolsa Chica Archaeological Project.....	61
Henry C. Koerper, Nancy Anastasia Desautels, and Jeffrey S. Couch	

## ***About the Authors***

**Jeffrey S. Couch** is an archaeologist with Scientific Resource Surveys, Inc., Temecula, California. He earned his B.A. in Anthropology at the University of California, Riverside, and he is working on his M.A. degree at California State University at Long Beach. His speciality is lithics analysis, and he presently is involved in the Bolsa Chica Archaeology Project.

**Nancy Anastasia Desautels** is president and research director of the cultural resource management firm, Scientific Resource Surveys, Inc., Temecula, California. She has extensive archaeological experience in the United States and Europe and has been a member of the Franchthi Cave research team in southern Greece since 1973. In southern California, Dr. Desautels has a wide range of interests in both historic and prehistoric archaeology.

**Jill K. Gardner** is a Ph.D. from the University of Nevada, Las Vegas. She is the Associate Director of the Center for Archaeological Research at California State University, Bakersfield. Ms. Gardner's research interests include the Mojave Desert, the Great Basin, the southern Sierra Nevada, and the southern San Joaquin Valley. She has published in the *Journal of California and Great Basin Anthropology*, *Quaternary Science Reviews*, *Kern County Archaeological Society Journal*, and *Coyote Press Archives of Great Basin Prehistory*. For the last two years, she has also conducted excavations and analysis of Late Roman/Coptic mummies at Tell El-Hibeh in Egypt.

**Henry Koerper** earned his B.A. and M.A. degrees from the University of California Davis (1965 and 1968). In 1981, he finished his Ph.D. studies at University of California Riverside. Dr. Koerper retired from full-time teaching at Cypress College in Orange County in May, 2005. He plans to continue doing archaeological research and writing on a variety of subjects.

**Sally McGill** is a professor of geology at California State University, San Bernardino, where she has taught since 1991. Dr. McGill's research focuses on field studies of active faults, including the San Andreas and Garlock faults in southern California. She has been published in the *Journal of Geophysical Research*, *Bulletin of the Seismological Society*, and *Quaternary Research*. Her doctoral work was completed at the California Institute of Technology, following her undergraduate degree in geology from Harvard and Radcliffe Colleges.

**Mark Q. Sutton** received Ph.D. in Anthropology from the University of California Riverside. He serves as Professor in the Department of Anthropology at California State University, Bakersfield. Dr. Sutton's research interests include the California deserts, the Great Basin, and the southern Sierra Nevada. He has published in a number of archaeological and anthropological journals.

**Judith F. Porcasi** is a zooarchaeologist at the UCLA Cotsen Institute of Archaeology and an independent consultant on archaeofaunal collections. She received a Certificate in Archaeology from UCLA in 1991 and an M.A. in Anthropology from California State University, Northridge, in 1995. She also has an M.A. in Journalism from the University of Southern California and is currently a doctoral candidate at Leicester University, United Kingdom. Her principal interest is Terminal Pleistocene/Early Holocene adaptations to maritime settings.

**Paul Porcasi** received a Certificate in Archaeology from UCLA in 1991 and has been involved in field and laboratory work with California cultural resource management firms since 1988. He previously earned undergraduate and advanced degrees at the University of California at Los Angeles in other fields. He has coauthored a number of reports on major California sites, with a particular focus on lithic artifacts, and has a continuing interest in the geology of the region and its influence on the related archaeology.

**Ivan Strudwick** received both his B.A. (1981) and his M.A. (1986) in Anthropology from California State University, Long Beach. His masters thesis concerned prehistoric circular fishhooks of California. His research specialty is coastal maritime cultures and artifacts of California. He has conducted archaeological investigations throughout the State and the Channel Islands for the past 25 years. He works at LSA Associates, Inc., Irvine. He recently directed excavations a CA-ORA-269.
